## Supergasbras

### Supergasbras joins CUFA in a heartwarming initiative

"Whoever does good puts a very important energy in motion. During this week, of donations of cylinders in Brazil, we were sure that solidarity is the energy that most transforms lives. Altogether, 30 thousand were donated, through CUFA, to the Project Mothers of the Favela, a national initiative in which basic rights are given to vulnerable mothers.

Through the action #EnergiaDeMãe, we take our energy to mothers all over the country, at a sensitive but also symbolic moment - Mother's Day. During deliveries, even with their faces covered by the mask, we saw, by the gleam of their eyes, the certainty of each mother that there would be food on the table on that date, so special for everyone. And for us, this sparkle in the eye is what matters most. They say that what counts in life is not how long it lasts, but how much we give ourselves during the journey. That may not be easy, but in which, together, it is possible to achieve much more."
