

Doing Good Together

"Dutch companies gathered to fight against Corona"

Dutch Companies in Brazil

Doing Good Together

Today we are all facing difficult moments. But we are not alone. Together with our Dutch companies in Brazil, we are gathered to fight against Corona and to help the local community through many different initiatives and projects.

Because it feels good when doing good together!

Deloitte

Support for crisis management in the State of São Paulo

Deloitte has been acting pro bono, responding to the best collective interest of society in a task force of the public and private sectors of São Paulo - city and state where the impact of the COVID-19 crisis has been proportionally greater and where the company maintains more than two thirds of their operation in Brazil.

They have supported crisis management on three fronts: preserving business, promoting health, and fighting hunger, with the direct dedication of 3 partners and more than 20 professionals. They are also articulated with a global network of professionals who monitor and act on the impacts of the pandemic worldwide.

The CEO, Altair Rossato, is also part of a group of more than 200 business leaders who meet virtually with representatives of the São Paulo government to discuss actions to combat the pandemic.

PHILIPS

Philips Respironics E30 for emergency use to fill the critical hospital ventilation shortage

To further address the pressing need for critical care ventilators, Philips has been working closely with leading respiratory physicians and medical device regulators in the U.S. and other countries to develop a readily available ventilator that fills the critical hospital ventilation shortage.

Designed for large scale production by a team deeply experienced in respiratory care, the Philips Respironics E30 ventilator is optimized to treat patients with respiratory insufficiency. This easy-to-use ventilator offers quick set-up and simple operations allowing healthcare providers with a wide range of skill sets to treat and monitor patients. The Philips Respironics E30 can be used non-invasively, as well as invasively, offering the flexibility to adapt to the treatment needs of patients with COVID-19.

PHILIPS

SHELL

Supporting the production and acquisition of molecular and rapid diagnostic tests for the identification of the new coronavirus

Shell Brasil has partnered with the Oswaldo Cruz Foundation (Fiocruz) to support the production and acquisition of molecular and rapid diagnostic tests to identify the new coronavirus. Fiocruz will deliver the tests to the Ministry of Health, which will distribute them in the public health network, in hospitals and in several service points across the country. The initiative is part of the *Unidos Contra a COVID-19* program, a platform that allows donations to an emergency fund from Fiocruz, used in actions to combat the new coronavirus.

Rabobank

Supporting the floriculture sector and employee's well-being

Among the impacts caused by the new coronavirus, the flower market has been facing great difficulties. Therefore, Rabobank decided to support the sector by sending flowers to all its employees.

More than contributing to the producers, this gesture is also a way of bringing more lightness and well-being to employees, as a thank you for the dedication during this period. And so, to continue Cultivating a Better World Together, at home!
